

# NSW PLUMBERS UNION Combined Trades Communication Meeting

The NSW Plumbers Union is currently in discussions with Major Principal Contractors and Employers in regard to the reintroduction of Project Allowances on Construction Sites across NSW.

Some of these Major Contractors feel it's OK to offer Project Allowances on sites in Victoria and Queensland, but are about to start a Project in the heart of the CBD worth an estimated \$6 Billion, and don't think that you deserve a cent.

The NSW Plumbers Union Committee of Management has unanimously endorsed a Combined Trades Communication Meeting to be held at **3.00pm on Thursday, 19th August 2010** at the Parramatta Town Hall. We encourage all Plumbers, Sprinkler Fitters and roofers in the Construction Industry to attend this meeting.

At a recent Rally held at Sydney Town Hall it showed and proved by the attendance of Plumbers and Sprinkler Fitters what your delegates have been telling us, you want back what the Howard Government took, so I can't stress enough the importance of you attending this meeting.

**DATE:** Thursday 19<sup>th</sup> August 2010

**TIME:** 3.00pm

**PLACE:** Parramatta Town Hall  
Church St. Parramatta
